

1.1 Recite numbers in order to 10

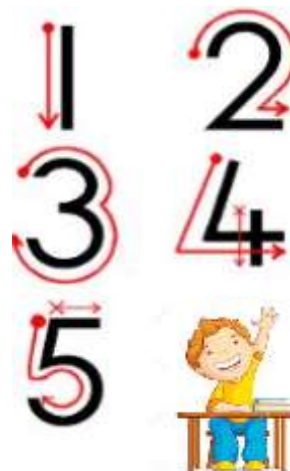

Use a puppet or favourite teddy to count to 10, making a mistake. Can the child spot the mistake and explain what is wrong - then count along correctly with you.

1.2 Recognise numerals

to 5

Can you find the number 4?

1.3 Count up to three or four objects by saying one number name for each of them.

1.4 Count out up to six objects from a larger group

Use toys to help children count.

Astronaut Selection

Colour the star when you think you have the skill. Remember, you should aim to answer each question in 3 seconds (try to answer 10 or more in 30 seconds). Your teacher will let you know the next time there's an assessment.

1.5 Select the correct numbers to represent 1 to 5

Make cards, one with each number on then see if your child can match the card to the correct number of lego pieces/toys

1.6 Select the correct numbers to represent 1-10

Use a puppet or favourite teddy to count to 10 along a number line, making a mistake. Can the child spot the mistake and explain what is wrong - then count along correctly with you.

1.7 Count objects to 10

Songs and rhymes

There are lots of CDs available with musical tables. Great fun to sing along to on long car journeys!

Songs to support numbers to 10, eg. 10 in a bed, 10 green bottles.

1.8 Count beyond 10

Make it fun. Confidence around numbers to 10 are fundamental in developing efficiency with numbers so try not to rush this stage. However challenging them to think beyond 10 often engages children. Play the same games but extend. What's the largest number they can think of!
