British Science Week and Whole School Poster Competition

Dear Parents/Carers,

This week we are celebrating British Science week in school! Across the week, each class will be completing some 'curious question' science investigations which we are sure the children will be excited to tell you about!

To continue celebrating Science week, we are running a **whole school poster competition**, and we have some very exciting Science prizes up for grabs! Children in EYFS, Key stage 1 and Key stage 2 are invited to take part in our poster competition.

The brief is for the poster to link to the question 'What makes children's lives good?'. A separate planning sheet with a little more information on what to include in your posters has been attached as guidance for the competition.

Our top 5 entries will also be entered to the national British Science week poster competition and may be made public so please don't include any personally identifiable information such as names or photos of real people. Posters can be named on the back with your child's first name, the initial of their surname and year group.

The closing date for the competition in school is Friday 20th March with the winners being announced the following week!

If you have any further questions, please do not hesitate to speak to me.

Kind regards,

Mrs Armstrong

Year 3/4 class teacher and Science Lead
